**The Writing Requirement may be satisfied by successfully completing a seminar paper, an individual research project or Law Review:**

**Seminar paper:** A student may earn upper-level writing requirement credit for completing a seminar paper. To do so, work submitted for the seminar paper must be of publishable quality, as determined by the faculty advisor. If a professor determines that a paper is not of publishable quality, a student may be denied upper-level writing credit, even if the professor determines that the student should receive course credit. Normally, a grade of 2.25 or higher reflects that the student has earned upper-level writing credit and a grade at or below 2.0 reflects that the student has not earned upper-level writing credit. If a professor determines that a student should not receive writing credit for a seminar paper, the professor should inform the Associate Dean of Academics and the Registrar as soon as practicable.

**Individual Research Project (IRP):** A student may earn upper-level writing requirement credit for completing an IRP. To do so, work submitted for the IRP must be of publishable quality, as determined by the faculty advisor. If a professor determines that a paper is not of publishable quality, a student may be denied upper-level writing credit, even if the professor determines that the student should receive course credit. Normally, a grade of S+ or S reflects that the student has earned upper-level writing credit and a grade of S- or U reflects that the student has not earned upper-level writing credit. If a professor determines that a student should not receive writing credit for an IRP, the professor should inform the Associate Dean of Academics and the Registrar as soon as practicable.
Law Review: *Stetson Law Review* members demonstrate high academic performance and exacting legal research and writing skills. Members collaborate in a firm-like environment to publish legal scholarship that addresses contemporary topics that are relevant both nationally and to Florida practitioners.

**Pro Bono Requirement**
60 required hours (30 hours must be law related) **matriculated fall 2010 or after**

**Residency Requirement**
By the end of the last semester, each full-time student is required to have completed:

6 semesters of residency (a minimum completion of 10 hours each) **OR**

5 semesters of residency (a minimum completion of 10 hours each plus 2 summer semesters of at least 5 hours each).

**Classroom Credits**
Complete a minimum of 65 credits of regularly scheduled classroom hours. Please review the policy (http://www.stetson.edu/law/policies/home/media/minimum-number-of-classroom-credits-required-for-graduation-pdf.pdf) for more information regarding this requirement.

**Awarding of Diplomas**
The College of Law will award diplomas three times each academic year: at the conclusion of the fall, spring semesters, and at the conclusion of the on-campus summer session. Absent extraordinary circumstances, as determined by the College of Law Dean or the Associate Dean for Academic Affairs, to receive a diploma, a student must have completed all graduation requirements by the date the Registrar establishes for faculty to submit grades for graduating seniors. In addition, absent extraordinary circumstances, the student must not have any pending honor code, conduct code, or criminal charges.

Certain elective courses are offered regularly (r) (at least once in 3 semesters) while others are offered occasionally (o). Most elective courses are three (3) credits. LAW 3063I. ADV CONT: ISSUES, CONCEPT & METHO. 2 to 3 Credits.
This is an advanced course in the concepts and topics first introduced to students in their first-year Contracts course. This course will cover in-depth some of the difficult topics that were introduced in Contracts (e.g. parol evidence, conditions). It will also include topics that were probably not covered in the Contracts course but are important in practice (e.g. third party issues; letters of intent). The course provides an overview of crimes of international concern best known as treaty crimes. Transnational Criminal Law (TCL) relates to the crimes excluded from the jurisdiction of the International Criminal Court and offenses that violate jus cogens norms. Treaty crimes emerged from nations’ initiative to combat international criminal activity, enabling groups of states to respond rapidly to new forms of criminality. TCL does not create individual penal responsibility under international law; this is an indirect system of interstate obligations generating national penal laws. The students will learn TCL in a comparative manner. We will study the relationship between rules of more than one system, we will see how one system or one of its rules derives from another system or convention, perhaps with modifications, and how one system could exert influence on another. A comparative approach allows us to see how rules are adopted, whether according to societal needs, policies and goals, or simply by borrowing and adapting rules that otherwise ignore a nation’s reality. This approach will also allow the students to see the effectiveness or lack thereof of implemented rules and question policies and approaches taken by different nations.
