

Advising Course Plan - Biology Major - Medical School Interest

Plan for Students Interested in Medical School (MD, DO) - Chemistry First Plan

This is an alternate plan for Biology pre-medical students who want to complete Biochemistry before taking the MCAT and avoid a year between Stetson and medical school but may not be prepared for two lab science courses during the first semester. *Students who take this path should have a good background in Chemistry and Math from high school and a math SAT score between 600 and 650.*

- ¹ The timing of the Math course is not critical; it can be taken at a later time. Some students may place into, and wish to take MATH 130 or MATH 141Q.
- ² The Junior Seminar can be taken in the spring instead of the fall.
- ³ You should consider taking CHEM 304 in the spring of the third year.
- ⁴ During the spring of the third year or fourth year, you will need to take another 0.5 or 1 unit course to average 4 units per semester.
