

Advising Course Plan - Applied Mathematics - Actuarial and Financial Concentration 2-Year Plan

This advising plan shows an example of working through the requirements for the major in two years. It is appropriate for students who have already completed sixteen units of coursework with many of the General Education requirements satisfied by that earlier coursework. The student's individual academic plan will be developed in consultation with an adviser and reviewed each semester prior to registering for the next semester. This plan assumes that the student has taken Calculus I, Calculus II, Essentials of Economics and Fundamentals of Accounting prior to the first semester shown in the plan. Students who have completed less than 16 units, have a substantial number of General Education requirements yet to satisfy, or who have not completed the courses just listed may not be able to complete the degree in two years.

Courses for the major that should be completed prior to the first semester of this plan: Calculus I, Calculus II, Essentials of Economics and Fundamentals of Accounting.

First Year		
Fall		Units
MATH 221Q	Introduction to Logic and Proof	1
MATH 243Q	Calculus III with Analytic Geometry	1
SOBA 201	Fundamentals of Financial Analysis	1
Upper Division MATH or FINA Requirement ¹		1
Term Units		4
Spring		
MATH 211Q	Linear Algebra	1
CSCI 261	Data Science I	1
Upper Division MATH or FINA Requirement ¹		1
Upper Division MATH or FINA Requirement ¹		1
Term Units		4
Second Year		
Fall		
MATH 498	Senior Project I	1
Upper Division MATH or FINA Requirement ¹		1
Upper Division MATH or FINA Requirement ¹		1
General Education Requirement or Elective		1
Term Units		4
Spring		
MATH 499	Senior Project II	1
Upper Division MATH or FINA Requirement ¹		1
General Education Requirement or Elective		1
General Education Requirement or Elective		1
Term Units		4
Total Unit: 16		

¹ 300- or 400-level course.
